Introduction

The Enrichment Center is entering the 40th year of service provision as a non-profit service provider in Forsyth and the surrounding counties. We have provided art-based day services and supported employment unlike anything else provided in the community to those with intellectual and developmental disabilities (IDD). The path that we have forged as a unique provider has not always been easy, but we have had strong leadership over the years that have kept the focus on the mission that has brought us to this 40th year celebration. Our aim is to be successful another 40 years and continue to support those with IDD in Forsyth and surrounding communities and expanding participation. We have the vision to develop services beyond what we have provided in the past and reach out to surrounding communities. We plan to work to meet the ever-changing needs of those with intellectual and developmental disabilities and their families.

The purpose of developing this strategic plan was to map out the future that reflects the needs of those supported and the vision of The Enrichment Center. The Plan is not developed alone but by the Board, staff, individuals served and stakeholders. The focus of the plan is on the mission, vision and strategic priorities identified during the strategic planning process. We have themed this 3-Year Strategic Plan - "Leveling Up". This is because we are working to take all we do to the next level of quality over the coming years.

This strategic plan is like a road map to identify the route to take in the up-coming three (3) years. It is the vision for a bright future for those we support and The Enrichment Center (TEC). This plan serves to help coordinate the work of our staff, make efforts more effective and is a reminder to stay focused on our values. It also allows the organization to be more accountable and transparent to all involved. The goals identified directly impact the lives of those we support and the ultimate outcome of helping each person in our services live their best life.

The commitment of the leadership at TEC is to communicate the plan to the Board, staff, those supported, families and stakeholders over the coming months. This is to ensure that those associated with The Enrichment Center are aware of the goals and our commitment to success in the coming three (3) years and beyond.

Executive Summary

For the past two years, The Enrichment Center has undergone a transformation. COVID-19 and the new Managed Care environment have provided opportunities to make changes both administratively and programmatically to best meet the needs of those we serve and to become a more viable non-profit. We are now moving to post-COVID times and finding that we will be keeping many of the practices that we have put in place. The new Managed Care environment is driving changes in the way we operationalize and become more adept in our business practices. As we progress with these changes, we will be better positioned to grow, improve services and "level up".

MISSION

"TO EMPOWER AND ENRICH ADULTS WITH INTELLECTUAL AND DEVELOPMENTAL DISABILITIES, ENABLING THEM TO GROW AS INDIVIDUALS. LIVE WITH DIGNITY AND HAVE CHOICES IN HOW THEY FULFILL THEIR LIVES."

We were successful in meeting many of the strategic goals set forth in the plan but more importantly, the groundwork was laid for The Enrichment Center to be more efficient, effective, well-trained and overall a better provider and employer. We did not fully accomplish all goals at 100% but we did prove that even during

the most difficult times, under duress, and with little hope for what was next, we could come together as a team and accomplish what we envisioned. We count all progress during this time as a “win”.

We are excited to build upon the success we have already achieved in our last plan. To achieve real change, we must work together to implement the strategies that will produce results. That being said, we are expecting to be fully engaged in the community in the next three (3) years. We will engage and increase participation that represents more diversity and represents those we support. We look forward to collaborating with families, individuals in service, caregiver, guardians, local and state partners, providers, and advocate organizations to implement this plan. Together, we can bring more awareness to the IDD world and work toward addressing gaps in service delivery.

Looking to the future, we are thrilled to have a strong team in place that has worked to set goals, along with staff, those we support, families and the Board, for our future. It is a privilege to have the opportunity to lead during this 40-year celebration for The Enrichment Center. I thank all those leaders who came before me, and they should be given the recognition for their years of dedication to the mission. We would not be where we are today without all those who came before us. The current leadership team sees that it is our obligation to leave a legacy for those who come after us and to leave The Enrichment Center in a better place than when we arrived.

Strategic Planning Process

The Enrichment Center worked with a strategic planner to assist with the process of gathering information and identifying strategic priorities. This effort was funded by a grant from The Winston-Salem Foundation. The Enrichment Center is grateful to The Winston-Salem Foundation for continually supporting our development and leadership efforts. Their support helps us be an even stronger non-profit provider in Forsyth County.

This strategic plan lays out a clear plan for The Enrichment Center and the expected outcomes to be achieved over the life of the plan. The key elements of the strategic planning process are outlined but it is not all inclusive. Additional information on the assessment, data collection, and input obtained is available for review in form of reports, minutes, and power-points. The planning process took just over three months. The work has not ended since the Strategic Plan has been developed, it is only the beginning.

VISION / VALUES

Vision Statement

Our vision is to see every person with an Intellectual/Developmental disability in our community **live the best life** for them.

Values

People First

We believe that people with intellectual and developmental disabilities are defined by their own strengths, abilities, and inherent value – not by their disability.

Equity

We believe that people with intellectual and developmental disabilities are entitled to the respect, dignity, equality, safety, and securities accorded to other members of society and are equal before the law.

Community

We believe that people with intellectual and developmental disabilities belong in the community and have fundamental moral, civil and constitutional rights to be fully included and actively participate in all aspects of society.

Self-determination

We believe in self-determination and self-advocacy. People with intellectual and developmental disabilities, with appropriate resources and supports, can make decisions about their own lives and must be heard on issues that affect their well-being.

Diversity

We believe that society benefits from the contributions of people with diverse personal characteristics (including but not limited to race, ethnicity, religion, age, geographic location, sexual orientation, gender and type of disability).

The steps that will be taken once the Board approves the plan are as follows and are necessary for the success of the goals of this plan:

- Sharing and communicating the plan with staff, participants, families, and the Board.
- Ownership of the strategic priorities by leadership,
- Development of measurable strategies to meet the outcomes identified,
- Accountability of leadership staff to ensure that the outcomes are met; and
- Reporting process for each strategic priority both to staff and the Board.

Steps Taken to Prepare for the Strategic Plan:

November 2021:
<ul style="list-style-type: none"> • The Leadership Team Retreat was held, input that was gathered and tentative focus “buckets” were formulated. Overall objectives were prepared for the Board retreat in March 2022.
February / March 2022:
<ul style="list-style-type: none"> • Consultant spent a week on-site meeting with community/stakeholders, staff, those served and the Leadership Team to obtain input for the strategic plan.
<ul style="list-style-type: none"> • Board Retreat held to share the information collected and to obtain Board input.
April 2022:
<ul style="list-style-type: none"> • The Leadership Team met to craft the goals for the strategic plan discussing overall outcomes and 3-year expectations.
<ul style="list-style-type: none"> • Executive Director uses input from all meetings, data collected and discussion with leadership to create the Strategic Plan that is measurable, attainable and has benchmarks to identify progress throughout the 3-year plan.
May 2022 / March 2023:
<ul style="list-style-type: none"> • The Board was presented with the Plan for review and approval.

The Enrichment Center’s (TEC) budget was cut by 50% due to COVID in March 2020. In 2022, TEC was 60% of the pre-COVID budget. There were 89 staff employed at TEC prior to COVID and the agency shrank to less than 40 staff in April of 2020. At the time of this plan, there is a total of 60 staff employed with TEC.

Overview of the Strategic Priorities:

Throughout the Strategic Planning process, the strategic areas have been brought forward and categorized in eight (8) strategic priority areas.

- **Art** is the focus and the founding basis of our programming. It is the area that differentiates TEC from other day programs.
- **Diversity / Equity / Inclusion** program is an essential aspect of building engaged and happy employees. Organizations with strong diversity climates are more likely to have those supported, employees and families and stakeholders with increased satisfaction, higher levels of trust, and are more engaged.
- **Staff development** is essential to the future success of TEC. The desire and need for a culture change, wanting to retain staff and helping staff finding career paths in the IDD field were areas of focus for the new leadership team.
- **Engagement and development** We have also changed how we provide services and need to market our services delivery. It is necessary to reach out and communicate more with our stakeholders and increase donations to TEC.
- **Best Practice** focus will help TEC to stand out from all other IDD providers and employers in Forsyth County. This impacts those in services and their satisfaction with life will be increased and the intent is they will be able to live their best lives.
- **Accessibility** is a need in our community for those with IDD. It is necessary to start internally to ensure we are an accessible organization and then work with the community to be more accessible.
- **Advocacy** is not only our obligation as a chapter of The Arc, but is a priority for TEC. We want to do our part in helping those in Forsyth and surrounding counties receive the services they need and to live their best life.
- **Organizational** management is the ability to lead through change, survive and thrive in a new reality as an organization.
